

Welcome to the Maths Department

Our Aims

Maths as a core subject is essential to every role within our lives it is a required qualification for all fields of employment and can support student achievement across all of the STEM subjects. Within the Maths faculty we apply innovative and creative teaching approaches that challenge, inspire and engage learners. We endeavour to enlighten students to learn through Maths and to apply Maths to everyday situations and context. We encourage student resilience, problem solving and logic skills both within our curriculum and across other subjects.

Department Information

The Maths department currently consists of ten members of staff including a Maths specialist TA. Situated on the second floor, lessons are taught in 9 dedicated classrooms. Each classroom is fitted with a data projector and a fully interactive whiteboard.
