Task sheet 1.1

The main bones of the human body

P1 Describe the structure and function of the skeletal system

Label the diagram with the main bones of the body.

Task sheet 1.2

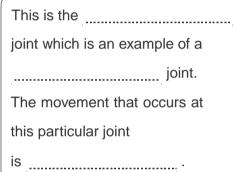

The joints of the human body

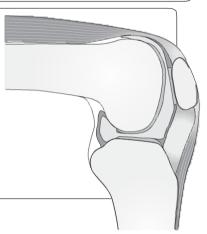

P2 Describe the different classifications of joints

Label the diagrams with the name of the joint, the type and the range of movement which can occur at each.

	j
A A A A A A A A A A A A A A A A A A A	

This is the ______ joint which is an example of a ______ joint. The movement that occurs at this particular joint is ______.

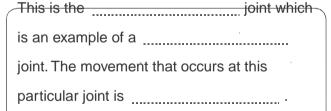

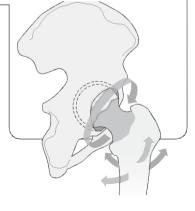

This is the ______ joint which is an example of a ______ joint. The movement that occurs at this particular joint is ______.

This is the _____ joint which is an example of a _____ joint. The movement that occurs at this particular joint is _____.

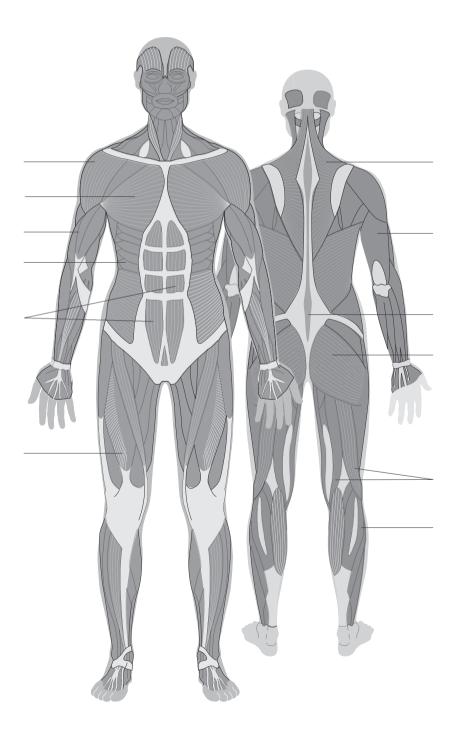

Task sheet 1.3

The major muscles of the human body

P3 Identify the location of the major muscles in the human body

Label the major muscles of the human body.

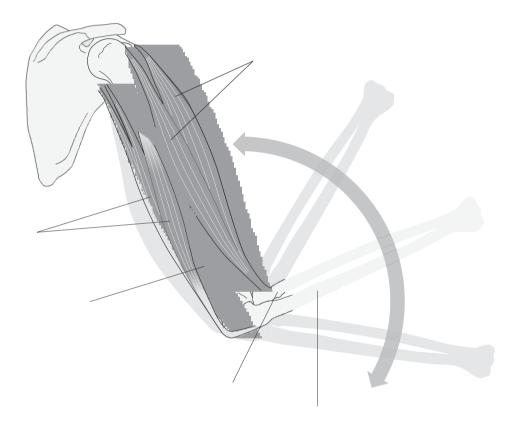

Task sheet 1.4

The action of a muscle movement

P4 Describe the function of the muscular system and the different types of fibres

M1 Explain the function of the muscular system and the different types of fibre

Label the diagram of the arm with bones and muscles that are shown.

For the movement of flexion which is shown in the diagram, identify the following muscles:

•	the antagonist in the flexion movement
	· · · · · · · · · · · · · · · · · · ·
•	the agonist in the flexion movement
W	hat is meant by the following two terms?
•	synergist
	fixator

BTEC National (Level 3) in Sport

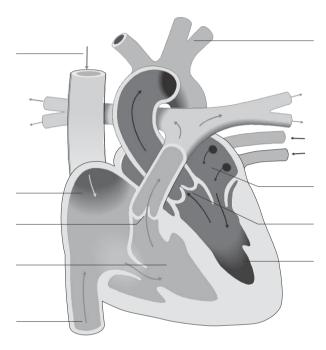

Task sheet 1.5

The heart

P5 Describe the structure and function of the cardiovascular system

Label the diagram of the heart.

Briefly describe the following blood vessels:

вті	EC National (Level 3) in Sport	 15	larperCollins Publish	
•	venuoles		 	
•	veins			
	·	 	 	
•	capillaries	 	 	
	ai terioles			
•	arterioles	 	 	
•	arteries			

(

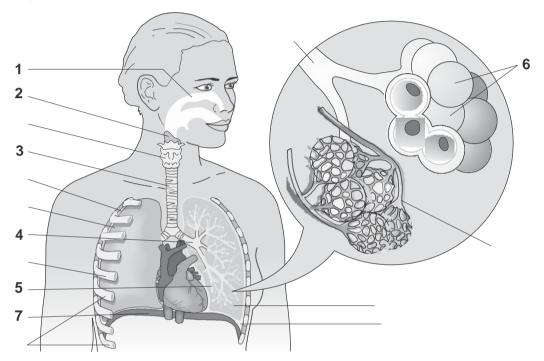

Task sheet 1.6

The respiratory system

P6 Describe the structure and function of the respiratory system

Label the diagram of the respiratory system.

Briefly describe the seven parts of the respiratory system which are labelled above:

1.

2.

3.

4.

5.

6.

7.

Task sheet 1.7 Continued

Describe the process of gaseous exchange shown in the diagram by adding your own words in boxes 1 to 4.

Define the terms listed below:

BTEC National (Level 3) in Sport

•	respiratory volume
	vital capacity
•	tidal volume
	inspiratory reserve volume
•	expiratory reserve volume
•	residual volume
•	total lung capacity
