

Dear Parent/Carer

This e-mail contains all the information you and your child need to select examination options for Year 10. It is important that you read it carefully and discuss it with your child to ensure you make sensible and informed choices.

There are three important steps to follow:

1. **Podcast-** Please use the link below to listen to the podcast that explains the options process including how to fill out the online options form. There is a useful section at the end that covers a range of frequently asked questions as well as email addresses for faculty heads if you have subject specific questions <https://youtu.be/l7RPHxyufZg>
2. **Options Booklet-** The options booklet is attached and I hope that you find the information interesting, useful and accessible. The final page displays the different option blocks from which students will choose their subjects.
3. **Online Form-** The final step is for you and your child to submit option preferences. Please select the link and fill in the form, and remember to click submit at the end of the page.
