

STUDENTS CELEBRATE A LEVEL SUCCESS AT NORTH OXFORDSHIRE ACADEMY
~ Russell Group university places for many of the school's Sixth Formers ~

Students at North Oxfordshire Academy are celebrating today after receiving some strong A Level results, securing a number of excellent university places.

Across the Sixth Form results improved across the board, with 34% of entries achieving A*-B grades and 71% achieving A*-C. The academy's overall pass rate was 99%.

There were likewise a number of particularly impressive individual results and destinations, including:

- Jamie Berry, who achieved AAB in Economics, Maths and Physics, as well as a Distinction* in BTEC Engineering, and will go on to study Economic Studies and Global Sustainable Development at the University of Warwick;
- Alex Wilton who achieved A*AA in Maths, Further Maths and Physics and will go on to study Maths and Physics at Warwick University;
- Lauren Lindsay who achieved AAB in Biology, Psychology and Chemistry and will go on to study Neuroscience at the University of Nottingham.

Alex Wilton said:

"I'm so pleased with my A Maths result – I had a brilliant teacher!"*

Sara Billins, Principal of North Oxfordshire Academy, said:

"Congratulations to all of our students on another strong set of A Level results this year. What is particularly pleasing to see is so many of them have gained places at their first choice universities and will now go on to study at top Russell Group institutions."

"The success of our students is testament to the dedication and hard work they have put into their studies throughout their time in the Sixth Form, as well as the support and guidance given by our excellent staff team. We wish them all the best of luck for the future, as they take their next steps towards university, go into further training or enter the workplace."
