

Bursary Guidance.

What is a bursary?

It is money the government has given to local authorities, schools, colleges and other education and training providers (institutions) to give to disadvantaged students. Its purpose is to provide financial support to help students overcome specific barriers to participation, so they can remain in education.

The bursary will open 3 times in the academic year: **September, January and May.**

Who is eligible?

- Students who are over 16
- Who are under 19 by the 31st August before the academic year in question. If a student turns 19 during their programme of study, they can continue to get the bursary to the end of the academic year in which they turn 19, or to the end of the programme of study, whichever is sooner.
- Those who have been based in the UK for 3 years or more
- who are receiving benefits
- Have a gross total income of £21,000 or less.
- Students who are in full time education at North Oxfordshire Academy will receive funding based on their requirements and a decision will be made based on attendance (95% or above), learning and behaviour around the academy.

Income up to £16,000.

Those who fall into this bracket can apply to receive up to £500 a year in bursary funding, which will be paid into students accounts every term (5 payments a year).

Income £16,190 -£21,000

Payment will be made to students, if successful, of up to £100 twice a year to cover equipment or travel costs (3 miles or more from academy).

Income over £21,000: Discretionary Bursaries

Students will be considered based on the resources they require and the factors discussed above are adhered to.

Discretionary bursaries are awards made by institutions to individual students who receive income of £21,000. They are targeted on overcoming the individual barriers to participation a student faces. They can be for whatever amount is deemed necessary to do this.

It is up to institutions to decide which students will receive a discretionary bursary and how much they will receive. However, they should be targeted at students who cannot stay in education without financial help for things like transport, meals, books and equipment. Institutions should not make blanket or flat rate payments to all students
